

“Beyond offering the area’s only inpatient pediatric unit and shorter ER wait times, Lovelace Westside Hospital has been recognized as a Pinwheel Champion by the Institute for Patient- and Family-Centered Care and as a best place to work consistently by multiple local and national organizations. We offer services tailored to everyone in the family, from children to seniors. Our hospital provides superlative birthing services, pediatric dentistry, women’s health services and more. We have expanded our services and continue to do so, as we grow alongside the Westside and Rio Rancho.”

Amy Blasing, CEO  
Lovelace Westside Hospital

Lovelace Westside Hospital offers the only inpatient pediatric unit servicing Rio Rancho and Westside Albuquerque.

For over 30 years, Lovelace Westside Hospital has been committed to offering Rio Rancho and Westside residents the latest in technology and high-quality care. Our 24-hour emergency department offers patients the ability to see a provider in about 30 minutes or less and also includes dedicated private rooms for our senior patients and for children.

We are proud to offer a 64-slice CT scanner, digital mammography and new MRI capability. We also feature a surgical and medical weight loss program, offering effective options for individuals whose weight increases the risk for health problems or causes a decreased quality of life.

Lovelace Westside Hospital’s birthing center offers 24/7 anesthesiology coverage, an OB surgical suite for C-sections, a lactation program and a special care nursery offering a higher level of care for newborns who require special attention.

Lovelace Westside Hospital offers a full spectrum of children’s care services including the Westside’s only inpatient pediatric unit and pediatric dentistry. The inpatient pediatric unit has coverage 24 hours a day, seven days week with skilled and compassionate nurses and specialists.

We are proud to be the only designated Pinwheel Champion in New Mexico by the Institute for Patient- and Family-Centered Care (IPFCC). Patient-and family-centered care is a mutual partnership between health care providers, patients and families. We will plan, deliver and evaluate your health care together so you can expect a safe and high quality hospital stay.

With a full range of medical and surgical services, you’re going to love Lovelace Westside Hospital.
