

“Lovelace Rehabilitation Hospital exists to help people get healthier after a major injury or illness. We have the privilege of helping our patients accomplish goals that so many others take for granted - such as learning to walk or speak, count change after a stroke, or balancing normally after a concussion. We celebrate our patients’ every victory, and we are dedicated to offering them every chance to succeed. We are accredited in more programs than anywhere in the state, because we are devoted to meeting the toughest industry standards for excellence. Our patients work hard to achieve their goals, and they can expect the same level of commitment from our team of therapists and providers.”

Derrick Jones, CEO
Lovelace Rehabilitation
Hospital

**LOVELACE
REHABILITATION
HOSPITAL IS THE ONLY
HOSPITAL IN NEW
MEXICO ACCREDITED
BY CARF IN SIX
PROGRAMS.**

The Commission on Accreditation of Rehabilitation Facilities (CARF) is an independent, nonprofit accreditor of human service providers in the areas of aging services, behavioral health, child and youth services, DMEPOS, employment and community services, medical rehabilitation, and opioid treatment programs. To learn more, visit www.carf.org.

Overview

Lovelace Rehabilitation Hospital is the only hospital in New Mexico accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF) in six programs:

- Stroke Specialty Program
- Brain Injury Inpatient Rehabilitation Programs
- Spinal Cord System of Care
- Inpatient Rehabilitation Programs
- Outpatient Medical Rehabilitation Programs (adults)
- Outpatient Medical Rehabilitation Programs (children and adolescents)

We provide a full continuum of inpatient and outpatient care, including physical therapy, occupational therapy, speech and language pathology, rehabilitation nursing and case management services.

- Number of employees: 226
- Licensed beds: 62 acute inpatient rehabilitation beds
- Inpatient admissions in 2013: 1,146
- Outpatient visits in 2013: 17,643
- Average inpatient length of stay: 13.7 days
