

“Lovelace Medical Center, located in the heart of downtown Albuquerque, has been the center of medical care for decades. We are proud to be at the leading edge of health care, having just earned an ‘A’ grade from Leapfrog for our hospital safety and quality. From our award-winning stroke care and cardiology, to our non-invasive radiologic brain surgery at the Gamma Knife Center, to our round-the-clock emergency services, we provide the highest quality of care to our patients and some of the Southwest’s most advanced technology. We are proud to continue to grow, adding inpatient adult behavioral health, further neurological services, updated surgical options and even more ways to care for our community.”

Derrick Cuenca, CEO  
Lovelace Medical Center

## WHERE TO FIND US

Complimentary valet parking available at front (north) entrance.

## Overview

Lovelace Medical Center is a patient-centered hospital featuring state-of-the-art equipment and a 24/7 emergency department that includes a dedicated area for treating our senior patients. We offer high-quality, high-tech medicine in a facility that has become a symbol of health and wellness in the heart of the city we serve. Nowhere else in the state will you find technology like our Gamma Knife Center, capable of treating complex, often inoperable, conditions of the brain.
