

Lovelace UNM Rehabilitation Hospital is dedicated to helping patients recover and become healthier after a major injury or illness. We have the privilege of helping them accomplish goals that so many others take for granted, such as learning to walk or speak, getting dressed, activities of daily living, or balancing normally if experiencing dizziness. Our outpatient therapy clinics help patients get back to normal daily living; a privilege we take very seriously. If you or your family member has had surgery, an injury or illness, our comprehensive outpatient rehabilitation program can help you recover more quickly and allow you to return to useful and productive activities. We celebrate our patients' every victory and we are dedicated to offering them every chance to succeed. Our patients work hard to achieve their goals and they can expect the same level of commitment from their team of therapists and providers.

LOVELACE UNM REHABILITATION HOSPITAL IS THE ONLY HOSPITAL IN NEW MEXICO ACCREDITED BY CARF IN SIX PROGRAMS.

The Commission on Accreditation of Rehabilitation Facilities (CARF) is an independent, nonprofit accreditor of human service providers in the areas of aging services, behavioral health, child and youth services, DMEPOS, employment and community services, medical rehabilitation, and opioid treatment programs.

To learn more, visit www.carf.org.

Lovelace UNM Rehabilitation Hospital has more accreditations than any other Rehabilitation Hospital in the area. The following six programs are accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF):

- Stroke Specialty Program
- Brain Injury Inpatient Rehabilitation Programs
- Spinal Cord System of Care
- Inpatient Rehabilitation Programs
- Outpatient Medical Rehabilitation Programs (adults)
- Outpatient Medical Rehabilitation Programs (children and adolescents)

We provide a full continuum of inpatient and outpatient care, including physical therapy, occupational therapy, speech and language pathology, rehabilitation nursing and case management services.

2024 Overview

- Number of employees: 198
- Licensed beds: 62 acute inpatient rehabilitation beds
- Inpatient admissions: 1,378
- Outpatient visits: 53,709
- Average inpatient length of stay: 12.2 days

Facts About Lovelace UNM Rehabilitation

- The University of New Mexico School of Medicine's Department of Orthopaedics & Rehabilitation is home to the UNM-Lovelace Physical Medicine and Rehabilitation (PM&R) residency. The accredited program focuses on restoring a patient's overall function – physically, emotionally, socially and vocationally. Residents will finish the program as proficient, well-rounded and compassionate physiatrists.
- We accept most major insurance plans, including Blue Cross and Blue Shield of New Mexico, Aetna Medicare & Commercial, SCAN Health Medicare, Medicare and all Medicaid/Turquoise Care plans, including Presbyterian Turquoise Care, Molina and many others.
