

HOME VISITING

is a family-centered way to improve prenatal health and early childhood experiences.

Home visiting is a free, personal, and trustworthy service provided by professionals in your community.

HOME VISITING:

- Provides reassuring details about your baby's developmental milestones
- Honors family traditions while increasing opportunities for your baby and young children to learn and grow
- Supports parenting, coaching and education

HOME VISITORS EMPOWER FAMILIES BY GIVING:

- A listening ear
- Knowledge to answer your questions
- Connections to community resources
- Additional parenting skills

Early brain development from newborn to age three sets the stage for the rest of your child's life. Why not make it the best it can be with your own personal home visitor?

Find a home visiting program that is right for you.
